18 WILL REMAIN

NOT ALL INSURANCE COMPANIES TO WITHDRAW.

MORE TO HEAR FROM

Local Agents Will Continue Writing Insurance—Refusal to Write Is Added Evidence.

After today, many fire insurance companies will cease writing business in Maryville and the state, owing to the Orr bill, which will become a law June 22. But the people of Maryville will still be able to take out fire insurance, as there are a few companies that are still writing and that intend to remain in the state. Many local agents had all of their companies to suspend business here for the present, at least, but it is thought now that many of those companies will resume business again. At least a few of the local agents think so.

Eighteen companies have written the insurance department at Jefferson City that they have reconsidered their decisions and will not suspend business. The companies are: Underwriters of American Lloyds, Colonial Assurance, New York, Standard Fire company of Hartford, Buffalo German of Buffalo, Iowa State of Keokuk, five Missouri old line insurance companies, and eighteen mutual companies.

That was the result of only one mail. The insurance department says it has definite assurances that some fifteen or eighteen more companies will refuse to carry out the agreement and will remain in the state and continue to write business. General Barker notified the insurance department that he would dismiss the suits against the companies that withdrew from the agreement to quit the state.

Of the many local fire insurance agents, the following will still write business for companies that are intending to remain here:

Paul Sisson will have the Citizens company, a Missouri company.

Smith & Grems will have the American Central, a Missouri company.

R. L. McDougal has the Buffalo Commercial insurance company.

Charles Hyslop will have the Buffalo German of Buffalo, N. Y.

Frank Roelofson has the Iowa State insurance company of Keokuk, Ia.

Enjoin Them From Suspending.

The supreme court has set May 8 as the date for the insurance companies to file their returns to the proceedings brought by the state.

General Barker says that if at that time any of the companies have suspended the writing of new business he will ask the court to grant an additional temporary order restraining them from suspending the writing of business. Then he will begin his efforts to prosecute criminally the heads of the companies that give orders for a suspension of business.

Barker said he would not begin criminal prosecution unless the Missouri committee ordered a general suspension of the writing of new business tomorrow. If that was done, he said, he would push the criminal prosecution to the limit.

If They Refuse Business.

The insurance companies, nearly two hundred of them, already are restrained by an order of the supreme court from canceling the existing insurance in Missouri. They also are cited under quo warranto proceedings to appear before the court and show cause why they should not be fined for "conspiring together" to desert Missouri. There is no court order yet to prevent them from suspending the writing of new business.

"If any company refuses to write new business after tonight, the time set for the companies to quit, it will be only additional proof of our charge that they have entered into a 'conspiracy,'" General Barker said. "It will aggravate their case now pending before the supreme court."

ROBBERY AT SHERIDAN.

Three Stores and Restaurant Were Entered on Wednesday Morning by Robbers.

A party of thieves secured about \$25 in change early Wednesday morning from three stores and a restaurant at Sheridan. The till at the restaurant owned by J. C. Calkins contained \$20.20 and all but twenty cents was taken and also two bottles of soda pop. The Scott mercantile store was next and \$2 was taken from the money drawer. Scott & Son general store was entered and \$1 taken. From C. A. Watson hardware store, only 75 cents was secured from the money drawer. The thieves also entered the garage of Beesley & Andrews and stole the tools used in their work. All of the doors of these places were pryed open by the use of a chisel and were left standing open. Nearly all of \$20 that was taken from the restaurant was taken out of the gum slot machine.

The authorities were working on the case and there are no clues.

Mrs. Ellis Cook went to Savannah Tuesday evening to visit her parents, Mr. and Mrs. J. T. Fuqua.

Mrs. L. E. Watson of Pickering was shopping in the city Wednesday.

AND BOYS MUST ATTEND SUNDAY SCHOOL, TOO.

CHURCHES MAKE PLANS

Sunday School Athletic Association Starts Off With Full Set of Officers and Rules.

A meeting of representatives of the protestant churches of the city was held Tuesday night in the Commercial club rooms, the purpose of which was to form what will be known as the Maryville Sunday School Athletic Association. Emmett Scott was elected temporary chairman and V. I. Moore, temporary secretary. Mr. Moore was instructed to draw up a constitution and by-laws, which are to be submitted at another meeting of the association next Monday night at the First M. E. church, at which time the association will be perfected and officers will be elected.

The association is to be composed of the five protestant churches of this city and Harmony church, eight miles east of Maryville. It is the plan of the association to conduct a base ball league during the summer. A track meet will also be staged. The Normal athletic park will be used for these activities. For winter sport the Sunday schools will turn to basket ball.

The question of eligibility came up at Tuesday night's meeting and it was recommended to the board of directors that only those boys would be eligible to compete in the various games and contests who attended Sunday school at least three Sundays in each month. The age limit was set at 21.

Those present at Tuesday night's meeting were: Rev. S. D. Harkness and Roy Curfman, representing the Presbyterian Sunday school; Mr. Moore, the Buchanan street Methodist church; Rev. Gilbert Cox, Emmett Scott and Lester Bennett, the First M. E. church, and John I. Hoffman, the Christian church.

LOOKS LIKE UNCONSTITUTIONAL.

Law Giving Cities Third Class Commission Form May Be Tested.

The fact that the law recently passed by the Missouri legislature giving to certain cities of the state the commission form of government conflicts with the constitution of the state and it is believed by experts that if tested, as it stands at present, would be declared unconstitutional by the supreme court.

The trouble hinges on a paragraph which prescribes that the legislature must give to all cities of the same class the same powers and restrictions. The new law leaves the matter of salaries in cities of 12,000 and under for the people to determine, according to attorneys who advocate the commission form of government. They say that the supreme court would hold that the new law does not give to all cities of the same class the same powers and restrictions. A test of the new law will be made in the supreme court.

WANTING TWO HUNDRED PEOPLE.

To Attend the Bible School and Church Services at the Christian Church at Pickering.

A want ad is published in today's issue of the paper by the Christian church of Pickering, advertising for 200 persons to attend the Bible school and church services at the Christian church in Pickering on next Sunday, May 4th. Arrangements are being made for a big day. The ad was sent in to this office by O. G. Null, one of the leading members of the Pickering church.

HOW TO FEED CHICKS.

State Poultry Experiment Station Issues Interesting Bulletin.

T. E. Quisenberry, who is known to the poultry raisers here, and who is now director of the poultry experiment station at Mountain Grove, Mo., has just issued a most interesting bulletin on how to raise chicks. A part of it is published below. The bulletin says:

Millions of baby chickens die on Missouri farms and in Missouri poultry yards each season. As a result, the loss in eggs and labor in hatching is tremendous. Much of this is due to improper methods of feeding and can be avoided.

Some of the mistakes in feeding are those of feeding too soon after being hatched, feeding too freely, feeding sloppy food, feeding too much corn, feeding commercial grit at the start instead of sand, feeding other ingredients which should not be used at the very beginning. These and similar mistakes tend to irritate the digestive organs and intestinal tract. Such practices often result in the chicks having diarrhea. The chicks become dumpy, get out of condition and die rapidly.

The chicks are not fed for 48 hours or more after they are hatched. Don't feed too soon. Give the chicks time to assimilate the yolk of the egg which contains enough food to last them several days.

Begin by feeding a mixture of two-thirds rolled oats and one-third wheat bran mixed with a small amount of charcoal. This is fed on a clean board or paper four or five times a day and only a small quantity fed at a time. We remove the feeding board after the chicks are through eating. Clean sand is given about the time the first feed is given, and no grit is given before. We think sand is better to start chicks with than commercial grit, if it can be secured, and if not, then use fine commercial grit very sparingly until chicks are at least ten days old. After the chicks are a week old, we begin to add a little commercial chick feed to the above mixture and gradually increase this until the rolled oats and bran are eliminated from the first or grain feed.

We add one-half pound of very fine salt to each 100 pounds of the above mixture, and also add a handful of fine charcoal. After the chicks are two weeks old, we begin to add a small quantity of dry beef scraps to the mash mixture. If the chicks are on free range, and get plenty of bugs and worms, they do not need the beef scraps. After the chicks are a week old, the grain mixture should be thrown into a fine clean litter or worked into fresh soil so the chicks will be compelled to exercise. If confined to a board or concrete floor, keep a shovel or several shovels full of clean soil on a portion of the brooder or hover floor so the chicks may scratch in this. If the chicks can be raised at all, they will unquestionably do well on the above feed.

Some farmer may say: "I cannot afford to buy commercial chick food nor the rolled oats." We wish to say that you can well afford to buy anything for the first few days feeding if it will insure you a greater number of strong chicks and lessen your mortality. One sack of commercial chick feed and a 25c box of rolled oats will start quite a large bunch of chicks. You can work gradually into the use of cracked corn, wheat and kafir corn after the chicks are six weeks old.

We give our young chicks all the sour milk or buttermilk they want from the time they are hatched until fully matured if it can possibly be supplied. If you chop up a few onions occasionally for the youngsters, they are good for them, keep them in good condition, and help supply green food. The infertile eggs may be boiled and mixed with some of the dry mash and fed to the chicks, also bread crumbs.

When the chicks have reached the age of six weeks we then place a dry mash before them composed of 2 parts bran, 1 part shorts and 1 part corn meal. This is placed in a hopper. It is also a good idea to mix a little fine charcoal in this ground feed, also a half pound of fine salt to every 100 pounds of the mixture. If you cannot furnish your chicks with the sour milk or buttermilk, it may be necessary for you to add one-half part of high grade dry beef scraps to the dry mash.

Mrs. DeWitt Sherlock and son, Paul, of St. Joseph, who have been visiting Mrs. John Behm and other friends and relatives, returned home Tuesday evening.

Mrs. Frances Keeler returned Wednesday noon from a several days' visit in St. Joseph with relatives and friends.

FIRE THIS AFTERNOON.

Owing to Being No Fire Bell, Department Did Not Get to Fire Very Soon.

The fire department was called at 1:30 o'clock this afternoon to the house on East Second street occupied by Mr. Combs. The property is owned by the Stephenson estate. All of the household goods were saved and the damage to the house will not exceed over \$300 or \$400. The roof was entirely destroyed.

The department was slow in getting to the fire, as the fire bell is not in use now owing to improvements on the city hall. They were delayed probably fifteen minutes owing to the bell being down, and when they arrived at the fire, all of the household goods had been taken out of the house.

The city should take steps at once for some fire bell or general alarm to be given in a case of fire, as it is necessary.

Another fire alarm was turned in from Combs' house just as we were going to press at 4 o'clock.

Went to Graham.

A party composed of Misses Nellie Wray and Julia Ward and County Superintendent Wm. Oakerson went to Graham Wednesday afternoon to attend the rural commencement exercises of Hughes township to be held at the M. E. church in Graham this evening. Miss Wray will sing a solo at the exercises.

Taking a Vacation.

Frank Hart, linotype operator of The Democrat-Forum, left Wednesday for St. Clair county, where he will spend a few weeks fishing and resting. He will also visit his parents at Mound City. Mr. Hart is taking his annual vacation at this time. His place at this office is being taken by Hollis Alexander of St. Joseph.

MARRIAGE LICENSES.

TARIFF PROGRESS IS MADE SLOWLY

Excited Discussion and Heated Wrangles Mark Reading.

SPEAKER CLARK TAKES FLOOR

Charges There Never Was a Republican Member of House in Favor of a Tariff Commission—All Amendments to Bill Voted Down.

Washington, April 30.—Excited debate and heated wrangles marked the reading of the Democratic tariff bill in the house for amendment. Progress on the perfection of the measure was slow, but the talk was loud and vociferous, and on one occasion Speaker Clark was on the floor with a vigorous speech.

All day the Republicans offered amendments to the various passages in the chemical schedule and every amendment calmly was voted down by the big Democratic majority.

Most of the talk of the day turned on the records of the Democratic side of the house on the question of creating a tariff commission.

Murdock Starts Fireworks.

Representative Gardner (Mass.) said that Representative Underwood and other Democrats had voted for the tariff commission in the Sixty-first congress, when the Republicans were in power, and urged that they support the Republican proposition now. Then Representative Murdock, the Progress sive leader, touched off the fireworks. He declared that both Republicans and Democrats were opposed to the tariff commission scheme and recalled the last day of the Sixty-first congress "Uncle Joe" Cannon's final appearance at the speaker's desk, when the tariff commission bill was withdrawn by the Republicans in face of a filibuster led by Representative Fitzgerald (N. Y.).

"The Republicans in this chamber then," shouted Mr. Murdock, "like the Republicans in this chamber now were only pretending to be for a tariff commission. They had their chance to write that bill into law then and failed. They will never have another chance."

The Republicans grew excited and Representative Gardner shouted that there was no foundation for Mr. Murdock's charge that the Republican leaders were in a conspiracy to defeat the tariff commission bill.

Gesticulating wildly, Mr. Gardner demanded the opinion of Representative Sherley (Ky.) as to the truth of the charge. Mr. Sherley said he believed many of the Republicans opposed the bill.

Clark Takes Floor. Then Representative Gardner, shaking a finger at Speaker Clark, demanded to know whether he believed the charge. The speaker strode to the well in the center of the house and shouted: "My judgment is that there never was a Republican leader in this house really in favor of a tariff commission."

Mr. Gardner sat down, and Speaker Clark went on. He declared he was against a tariff commission reporting to and responsible to the president. "It is the house that should have the information," he said.

The speaker went into detail about the defeat of the tariff commission bill in the Sixty-first congress, explaining that the Democrats refused to follow himself and Representative Underwood.

"They rolled up to a fare-you-well," he declared, "and the Republicans were standing back and consenting like Saul at the stoning of Stephen. They actually rolled up a majority against Underwood and myself, but it was the first time and the last time they ever did it. The only reason was they caught us napping."

Representative Gardner again tried to pin the speaker down to his position on the conspiracy charge.

"I think the gentleman from New York, Mr. Payne, was honest on that day in trying to get that bill through," said the speaker.

"But was there a conspiracy on that day?" demanded Mr. Gardner. "I cannot tell," said the speaker, "because I was not in it if there was one."

The house roared with laughter. The speaker concluded with the declaration that a nonpartisan tariff board was an impossibility and that he was in favor of giving the ways and means committee itself all the expert help it needed to ascertain the facts as to the tariff.

Overland \$985

Completely Equipped F. O. B. Factory

Overland Model 69 T

WE HAVE continually pointed out the fact that the \$985 Overland is the equal in construction, power, size, design, comfort, style and equipment of the average \$1200 car.

Some, unfamiliar with modern manufacturing methods, doubt this statement. As a matter of fact it is conservative.

Manufacturing 40,000 cars a year permits us to operate on such a large scale, that we not only make every part of every Overland in our own plants, but practically every part is made by automatic machinery, and that is what brings the cost down.

Several years ago, when our annual production was much less, the manufacturing cost of each Overland was considerably higher—and in consequence it cost you more. We had to make, finish and fit some parts by hand, and, what was most expensive, buy such parts as transmissions, crank cases, etc., from outside sources.

Today we make our own crank cases and save 200 per cent per crank case.

We make our own transmissions and save \$8 per transmission.

These are but two typical examples but they illustrate and prove our point—the enormous economy of big production. And such actual economies as these have made possible the 1913 Overland for \$985.

If you will take this practical information in the form of advice, it will be the means of saving you considerable money.

Those who examine the \$985 Overland in an intelligent manner will find in it most of the identical specifications that describe the average \$1200 car.

Why pay more than \$985 when \$985 buys you about as much as \$1200?

Married by Squire Morris.

Anna E. Parker of Bedford, Ia., and Frank Arthur Bull of Conway, Ia., were married by Squire J. W. Morris this afternoon in Sheriff Ed Wallace's office in the court house.

Mrs. F. H. Badger of Barnard came to Maryville Tuesday to accompany her daughter, Miss Leona Badger, home Tuesday evening. Miss Badger took up special work at the Normal at the close of her school at Skidmore, but was taken ill and will have to give up her studies for a while.

A BIT OF ADVICE.

First, Don't Delay—Second, Don't Experiment.

If you suffer from backache; headaches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Maryville residents desire more convincing proof of their effectiveness than a statement of a Maryville citizen who has used them and willingly testifies to their worth?

Mrs. James Fisher, 804 East Fifth street, Maryville, Mo., says: "In 1911 I began using Doan's Kidney Pills, which I got at Love & Gaugh's drug store, and they gave me relief from backache and pains in my sides. I recommend this remedy and I can say that it is reliable."

Adjusted the Loss.

C. D. Hooker of the County Mutual Insurance company adjusted the fire loss of Lule Anderson, sustained by the burning of a house located near Bedison. Mr. Anderson had \$600 insurance on the house and received this amount from that company. His loss however will be close to \$2,000.

NO. 284.

18 WILL REMAIN

NOT ALL INSURANCE COMPANIES TO WITHDRAW.

MORE TO HEAR FROM

Local Agents Will Continue Writing Insurance—Refusal to Write Is Added Evidence.

After today, many fire insurance companies will cease writing business in Maryville and the state, owing to the Orr bill, which will become a law June 22. But the people of Maryville will still be able to take out fire insurance, as there are a few companies that are still writing and that intend to remain in the state. Many local agents had all of their companies to suspend business here for the present, at least, but it is thought now that many of those companies will resume business again. At least a few of the local agents think so.

Eighteen companies have written the insurance department at Jefferson City that they have reconsidered their decisions and will not suspend business. The companies are: Underwriters of American Lloyds, Colonial Assurance, New York, Standard Fire company of Hartford, Buffalo German of Buffalo, Iowa State of Keokuk, five Missouri old line insurance companies, and eighteen mutual companies.

That was the result of only one mail. The insurance department says it has definite assurances that some fifteen or eighteen more companies will refuse to carry out the agreement and will remain in the state and continue to write business. General Barker notified the insurance department that he would dismiss the suits against the companies that withdrew from the agreement to quit the state.

Of the many local fire insurance agents, the following will still write business for companies that are intending to remain here:

Paul Sisson will have the Citizens company, a Missouri company.

Smith & Grems will have the American Central, a Missouri company.

R. L. McDougal has the Buffalo Commercial insurance company.

Charles Hyslop will have the Buffalo German of Buffalo, N. Y.

Frank Roelofson has the Iowa State insurance company of Keokuk, Ia.

Enjoin Them From Suspending.

The supreme court has set May 8 as the date for the insurance companies to file their returns to the proceedings brought by the state.

General Barker says that if at that time any of the companies have suspended the writing of new business he will ask the court to grant an additional temporary order restraining them from suspending the writing of business. Then he will begin his efforts to prosecute criminally the leads of the companies that give orders for a suspension of business.

Barker said he would not begin criminal prosecution unless the Missouri committee ordered a general suspension of the writing of new business tomorrow. If that was done, he said, he would push the criminal prosecution to the limit.

If They Refuse Business.

The insurance companies, nearly two hundred of them, already are restrained by an order of the supreme court from canceling the existing insurance in Missouri. They also are cited under quo warranto proceedings to appear before the court and show cause why they should not be fined for "conspiring together" to desert Missouri. There is no court order yet to prevent them from suspending the writing of new business.

"If any company refuses to write new business after tonight, the time set for the companies to quit, it will be only additional proof of our charge that they have entered into a conspiracy," General Barker said. "It will aggravate their case now pending before the supreme court."

The first three orations are prize orations delivered at inter-collegiate and inter-state contests. Rev. H. J. Duiker of Pickering is the pastor of the Mozingo Valley church.

ROBBERY AT SHERIDAN.

Three Stores and Restaurant Were Entered on Wednesday Morning by Robbers.

A party of thieves secured about \$25 in change early Wednesday morning from three stores and a restaurant at Sheridan. The till at the restaurant owned by J. C. Calkins contained \$20.20 and all but twenty cents was taken and also two bottles of soda pop. The Scott mercantile store was next and \$2 was taken from the money drawer. Scott & Son general store was entered and \$1 taken. From C. A. Watson hardware store, only 75 cents was secured from the money drawer. The thieves also entered the garage of Beesley & Andrews and stole the tools used in their work. All of the doors of these places were pried open by the use of a chisel and were left standing open. Nearly all of \$20 that was taken from the restaurant was taken out of the gum slot machine.

The authorities were working on the case and there are no clues.

Mrs. Ellis Cook went to Savannah Tuesday evening to visit her parents, Mr. and Mrs. J. T. Fuqua.

CHURCHES MAKE PLANS

Sunday School Athletic Association Starts Off With Full Set of Officers and Rules.

A meeting of representatives of the protestant churches of the city was held Tuesday night in the Commercial club rooms, the purpose of which was to form what will be known as the Maryville Sunday School Athletic Association. Emmett Scott was elected temporary chairman and V. I. Moore, temporary secretary. Mr. Moore was instructed to draw up a constitution and by-laws, which are to be submitted at another meeting of the association next Monday night at the First M. E. church, at which time the association will be perfected and officers will be elected.

The association is to be composed of the five protestant churches of this city and Harmony church, eight miles east of Maryville. It is the plan of the association to conduct a base ball league during the summer. A track meet will also be staged. The Normal athletic park will be used for these activities. For winter sport the Sunday schools will turn to basket ball.

The question of eligibility came up at Tuesday night's meeting and it was recommended to the board of directors that only those boys would be eligible to compete in the various games and contests who attended Sunday school at least three Sundays in each month. The age limit was set at 21.

Those present at Tuesday night's meeting were: Rev. S. D. Harkness and Roy Curfman, representing the Presbyterian Sunday school; Mr. Moore, the Buchanan street Methodist church; Rev. Gilbert Cox, Emmett Scott and Lester Bennett, the First M. E. church, and John I. Hoffman, the Christian church.

LOOKS LIKE UNCONSTITUTIONAL.

Law Giving Cities Third Class Commission Form May Be Tested.

The fact that the law recently passed by the Missouri legislature giving to certain cities of the state the commission form of government conflicts with the constitution of the state and it is believed by experts that if tested, as it stands at present, would be declared unconstitutional by the supreme court.

The trouble hinges on a paragraph which prescribes that the legislature must give to all cities of the same class the same powers and restrictions. The new law leaves the matter of salaries in cities of 12,000 and under for the people to determine, according to attorneys who advocate the commission form of government. They say that the supreme court would hold that the new law does not give to all cities of the same class the same powers and restrictions. A test of the new law will be made in the supreme court.

HOW TO FEED CHICKS.

State Poultry Experiment Station Issues Interesting Bulletin.

T. E. Quisenberry, who is known to the poultry raisers here, and who is now director of the poultry experiment station at Mountain Grove, Mo., has just issued a most interesting bulletin on how to raise chicks. A part of it is published below. The bulletin says:

Millions of baby chickens die on Missouri farms and in Missouri poultry yards each season. As a result, the loss in eggs and labor in hatching is tremendous. Much of this is due to improper methods of feeding and can be avoided.

Some of the mistakes in feeding are those of feeding too soon after being hatched, feeding too freely, feeding sloppy food, feeding too much corn, feeding commercial grit at the start instead of sand, feeding other ingredients which should not be used at the very beginning. These and similar mistakes tend to irritate the digestive organs and intestinal tract. Such practices often result in the chicks having diarrhea. The chicks become dumpy, get out of condition and die rapidly.

The chicks are not fed for 48 hours or more after they are hatched. Don't feed too soon. Give the chicks time to assimilate the yolk of the egg which contains enough food to last them several days.

Begin by feeding a mixture of two-thirds rolled oats and one-third wheat bran mixed with a small amount of charcoal. This is fed on a clean board or paper four or five times a day and only a small quantity fed at a time. We remove the feeding board after the chicks are through eating. Clean sand is given about the time the first feed is given, and no grit is given before. We think sand is better to start chicks with than commercial grit, if it can be secured, and if not, then use fine commercial grit very sparingly until chicks are at least ten days old. After the chicks are a week old, we begin to add a little commercial chick feed to the above mixture and gradually increase this until the rolled oats and bran are eliminated from the first or grain feed.

We add one-half pound of very fine salt to each 100 pounds of the above mixture, and also add a handful of fine charcoal. After the chicks are two weeks old, we begin to add a small quantity of dry beef scraps to the mash mixture. If the chicks are on free range, and get plenty of bugs and worms, they do not need the beef scraps. After the chicks are a week old, the grain mixture should be thrown into a fine clean litter or worked into fresh soil so the chicks will be compelled to exercise. If confined to a board or concrete floor, keep a shovel or several shovels full of clean soil on a portion of the brooder or hover floor so the chicks may scratch in this. If the chicks can be raised at all, they will unquestionably do well on the above feed.

Some farmer may say: "I cannot afford to buy commercial chick food nor the rolled oats." We wish to say that you can well afford to buy anything for the first few days feeding if it will insure you a greater number of strong chicks and lessen your mortality. One sack of commercial chick feed and a 25c box of rolled oats will start quite a large bunch of chicks. You can work gradually into the use of cracked corn, wheat and kaffir corn after the chicks are six weeks old.

We give our young chicks all the sour milk or buttermilk they want from the time they are hatched until fully matured if it can possibly be supplied. If you chop up a few onions occasionally for the youngsters, they are good for them, keep them in good condition, and help supply green food. The infertile eggs may be boiled and mixed with some of the dry mash and fed to the chicks, also bread crumbs.

When the chicks have reached the age of six weeks we then place a dry mash before them composed of 2 parts bran, 1 part shorts and 1 part corn meal. This is placed in a hopper. It is also a good idea to mix a little fine charcoal in this ground feed, also a half pound of fine salt to every 100 pounds of the mixture. If you cannot furnish your chicks with the sour milk or buttermilk, it may be necessary for you to add one-half part of high grade dry beef scraps to the dry mash.

TO HAVE LECTURE COURSE.

Various Churches and Organizations Are After Entertainment for Next Winter.

At a meeting of a number held at the Commercial club room Monday afternoon, it was decided to have a lecture course in Maryville the next winter and a temporary organization was perfected by electing President Ira Richardson of the Normal, president, and Rev. Claude J. Miller of the First Christian church, secretary.

An effort will be made to get all of the various churches and organizations of the city back of the course. Heretofore, the course has been in charge of the Normal. It will be a five or seven-number course and will be much larger and the attractions bigger.

Another meeting will be held during the latter part of May to perfect the organization.

C. E. WELLS TO LECTURE.

Mission Work in South America Will Be Theme of Talk at Presbyterian Church.

Mr. C. E. Wells, librarian at the Normal, will give an illustrated lecture tonight at the First Presbyterian church, telling of the mission work of the Presbyterian church in South America. The speaker has spent a number of years in that country under the supervision of the foreign mission board and he will tell of the work of these mission stations, information which he has gotten from actual experience. The lecture will be illustrated by slides made from pictures taken by Underwood & Underwood of New York City and should be of peculiar interest. The lecture will begin at 8 o'clock and the public is invited.

Overture, Barber of Seville—Rossini.

March, Flower Show—John W. Casto.

FIRE THIS AFTERNOON.

Owing to Being No Fire Bell, Department Did Not Get to Fire Very Soon.

The fire department was called at 1:30 o'clock this afternoon to the house on East Second street occupied by Mr. Combs. The property is owned by the Stephenson estate. All of the household goods were saved and the damage to the house will not exceed over \$200 or \$400. The roof was entirely destroyed.

The department was slow in getting to the fire, as the fire bell is not in use now owing to improvements on the city hall. They were delayed probably fifteen minutes owing to the bell being down, and when they arrived at the fire, all of the household goods had been taken out of the house.

The city should take steps at once for some fire bell or general alarm to be given in a case of fire, as it is necessary.

Another fire alarm was turned in from Combs' house just as we were going to press at 4 o'clock.

Went to Graham.

A party composed of Misses Nellie Wray and Julia Ward and County Superintendent Wm. Oakerson went to Graham Wednesday afternoon to attend the rural commencement exercises of Hughes township to be held at the M. E. church in Graham this evening. Miss Wray will sing a solo at the exercises.

Taking a Vacation.

Frank Hart, linotype operator of The Democrat-Forum, left Wednesday for St. Clair county, where he will spend a few weeks fishing and resting. He will also visit his parents at Mound City. Mr. Hart is taking his annual vacation at this time. His place at this office is being taken by Hollis Alexander of St. Joseph.

Insurance.

The following editorial is from the University Missourian of Columbia:

The insurance companies, in their opposition to the Orr Bill, are giving Missouri a good chance to have state or co-operative insurance. They are trying to coerce the state into accepting their own terms in the belief that the state cannot get along without them. Their plan is to cease writing insurance in the state, thus tying up credits and forcing the legislature to repeal the law.

Insurance should be a co-operative undertaking rather than a money-making scheme. An insurance company should be nothing more than a clerical bureau for conducting the business of its members. For this reason it might be owned by the state or co-operatively and perform a better service for less money. In fact, a number of middlemen could be dispensed with and thus lower the cost a great deal.

Every man should carry some sort of insurance. There is no way of telling when a person's worldly goods will be carried away or when a man will be taken from his work by sickness or injury. If it can be made possible for all to carry insurance, there will be fewer dependent persons in the country.

Foreign governments have undertaken state insurance with success. There is no reason why this state should not take it up. Co-operative insurance also has been found successful. Flour and lumber companies insure each other. Other industries do the same.

Let's stop this drain of Missouri money to Hartford, Conn., Liverpool and other points. Their present action seems to show that they do not appreciate what we have done for them in the past. Write Missouri's insurance in Missouri and at the same time do it better and cheaper.

GUILFORD NEWS ITEMS.

J. W. Lucas, road overseer for Grant township, just across the road from Guilford, is taking drift wood out of Platte river Tuesday, and cutting a channel across the bend in the river just below the bridge to throw the current in line with the bridge. Trees had broken off and fallen in the river so thickly that the current was thrown against the bank with such force that the bridge was in danger. Mr. Lucas is working under instructions given him by County Highway Engineer John Clary, who inspected that place last week.

Millard Ellis sold a team of mules Tuesday to George Moran for \$450.

Arch Ledgerwood of Parnell was a Guilford visitor Tuesday.

O. J. Pettigrew is removing his stock of merchandise from the Odd Fellows building in Guilford to a new store he is opening at Athelston, Ia.

Fred DeMoss and son of Stanberry were Guilford visitors Tuesday, guests of Matthew Whiteford and family.

Mrs. DeMoss, who is a daughter of Mr. and Mrs. Whiteford, is recovering nicely from an operation at St. Joseph's hospital in St. Joseph.

Hugh Ridlon, living five miles south-east of Guilford, was operated upon a few days ago in a St. Joseph hospital for appendicitis.

Guilford business houses are putting on a more business-like appearance these days, because of the work of a journeyman signwriter, one Murphy by name, who declares he is Irish.

A. O. Mason of Maryville was in Guilford Wednesday on automobile business.

J. L. Ballard went to Kansas City Wednesday morning on a business trip.

M. S. Richards of this place has a new Reo car.

Mrs. Florence Parr of Hamilton, Mo., is in Guilford visiting her parents, Mr. and Mrs. Matt Whiteford, and her sister, Mrs. Eunice Parr, and Mrs. Carl Wray.

Mrs. Julia Mahoney of St. Joseph was also one of the visitors at the Ray home.

ANAEMIC PEOPLE.

Need More Iron in the Blood.

If you are anaemic, you need more iron in your blood, and the tell-tale symptoms are a pale face, colorless lips, aching finger nails, poor circulation and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Mrs. G. S. Manuel of San Antonio, Texas, it will do for every anaemic run-down person. She says: "I was weak and nervous and had general debility for about three years. My health was badly run down and my complexion became sallow and badly affected with pimples. While in this weakened condition, I contracted pleurisy, which made it very hard for me. I am happy to say that Vinol has restored me to health again, and I have no cough or soreness of the lungs at all."

We ask every anaemic or run-down weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.—Orr-Henry Drug Co., Maryville, Mo.—Advertisement.

Sewell, on North Main street. The members of the class present were: Misses Grace DeMotte, Mabel Graham, Jeanette and Izora Mutz, Irene Kemp, Gladys Poland, Amy Clark, Dale and Arlie Hulet, Francyl Rickenbrode, Edna Wilson, Edna Moore, Anna Bartram and Ora LeGrand.

Gave Biblical Program.

At the meeting of the M. I. Circle on Tuesday afternoon at the home of Mrs. T. H. Cook, a Biblical program was given. The devotional service was led by Mrs. W. A. Blagg. Roll call was responded to with prayers. Two interesting papers were given, one on "The Palestine of the Bible" by Miss Emma Shroyer, and "Modern Palestine" by Mrs. W. A. Bailey. An instructive Biblical drill was conducted by Mrs. C. B. Roberts. Mrs. T. K. Wray acted as critic. During the business session, the circle elected a delegate to Missouri Federation of Women's Clubs, which will meet in Columbia in May. They were Mrs. W. B. Christy, president of the circle, with Mrs. C. B. Roberts as alternate.

TARIFF PROGRESS IS MADE SLOWLY

Excited Discussion and Heated Wrangles Mark Reading.

SPEAKER CLARK TAKES FLOOR

Charges There Never Was a Republican Member of House in Favor of a Tariff Commission—All Amendments to Bill Voted Down.

Washington, April 30.—Excited debate and heated wrangles marked the reading of the Democratic tariff bill in the house for amendment. Progress on the perfection of the measure was slow, but the talk was loud and vociferous, and on one occasion Speaker Clark was on the floor with a vigorous speech.

All day the Republicans offered amendments to the various passages in the chemical schedule and every amendment fairly was voted down by the big Democratic majority.

Most of the talk of the day turned on the records of the Democratic side of the house on the question of creating a tariff commission.

Murdock Starts Fireworks.

Representative Gardner (Mass.) said that Representative Underwood and other Democrats had voted for the tariff commission in the Sixty-first congress, when the Republicans were in power, and urged that they support the Republican proposition now. Then Representative Murdock, the Progress sive leader, touched off the fireworks.

He declared that both Republicans and Democrats were opposed to the tariff commission scheme and recalled the last day of the Sixty-first congress "Uncle Joe" Cannon's final appearance at the speaker's desk, when the tariff commission bill was withdrawn by the Republicans in face of a filibuster led by Representative Fitzgerald (N. Y.).

"The Republicans in this chamber then," shouted Mr. Murdock, "like the Republicans in this chamber now were only pretending to be for a tariff commission. They had their chance to write that bill into law then and failed. They will never have another chance."

The Republicans grew excited and Representative Gardner shouted that there was no foundation for Mr. Murdock's charge that the Republican leaders were in a conspiracy to defeat the tariff commission bill.

Gesticulating wildly, Mr. Gardner demanded the opinion of Representative Sherley (Ky.) as to the truth of the charge. Mr. Sherley said he believed many of the Republicans opposed the bill.

Clark Takes Floor.

Then Representative Gardner, shaking a finger at Speaker Clark, demanded to know whether he believed the charge. The speaker strode to the well in the center of the house and shouted: "My judgment is that there never was a Republican leader in this house really in favor of a tariff commission."

Mr. Gardner sat down, and Speaker Clark went on. He declared he was against a tariff commission reporting to and responsible to the president.

"It is the house that should have the information," he said.

The speaker went into detail about the defeat of the tariff commission bill in the Sixty-first congress explaining that the Democrats refused to follow himself and Representative Underwood.

"They rolled up to a fare-you-well," he declared, "and the Republicans were standing back and consenting like Saul at the stoning of Stephen. They actually rolled up a majority against Underwood and myself, but it was the first time and the last time they ever did it. The only reason was they caught us napping."

Representative Gardner again tried to pin the speaker down to his position on the conspiracy charge.

"I think the gentleman from New York, Mr. Payne, was honest on that day in trying to get that bill through," said the speaker.

"But was there a conspiracy on that day?" demanded Mr. Gardner.

"I cannot tell," said the speaker, "because I was not in it if there was one."

The house roared with laughter. The speaker concluded with the declaration that a non-partisan tariff board was an impossibility and that he was in favor of giving the ways and means committee itself all the expert help it needed to ascertain the facts as to the tariff.

Overland \$985

Completely Equipped F. O. B. Factory

WE HAVE continually pointed out the fact that the \$985 Overland is the equal in construction, power, size, design, comfort, style and equipment of the average \$1200 car.

Some, unfamiliar with modern manufacturing methods, doubt this statement. As a matter of fact it is conservative.

Manufacturing 40,000 cars a year permits us to operate on such a large scale, that we not only make every part of every Overland in our own plants, but practically every part is made by automatic machinery, and that is what brings the cost down.

Several years ago, when our annual production was much less, the manufacturing cost of each Overland was considerably higher—and in consequence it cost you more. We had to make, finish and fit some parts by hand, and, what was most expensive, buy such parts as transmissions, crank cases, etc., from outside sources.

Today we make our own crank cases and save 200 per cent per crank case.

We make our own transmissions and save \$8 per transmission.

These are but two typical examples but they illustrate and prove our point—the enormous economy of big production. And such actual economies as these have made possible the 1913 Overland for \$985.

If you will take this practical information in the form of advice, it will be the means of saving you considerable money.

Those who examine the \$985 Overland in an intelligent manner will find in it most of the identical specifications that describe the average \$1200 car.

Why pay more than \$985 when \$985 buys you about as much as \$1200?

A BIT OF ADVICE.

First, Don't Delay—Second, Don't Experiment.

If you suffer from backache; head-aches or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Doan's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Maryville residents desire more convincing proof of their effectiveness than a statement of a Maryville citizen who has used them and willingly testifies to their worth?

Mrs. James Fisher, 804 East Fifth street, Maryville, Mo., says: "In 1911 I began using Doan's Kidney Pills, which I got at Love & Gaugh's drug store, and they gave me relief from backache and pains in my sides. I recommend this remedy and I can say that it is reliable."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advertisement.

Adjusted the Loss.

BRYAN'S VISIT IS IN VAIN

California Senate Adopts Bill Barring Japs From Land.

MEASURE IS BASED ON TREATY

Following Secret Meeting Between Leaders and Secretary, Upper Body Votes Bill—President Wilson Expresses Disapproval.

Sacramento, Cal., April 30.—If the purpose of the visit of Secretary of State Bryan was to check further legislation by the legislature on the alien land law directed against the Japanese, his mission was a failure. The conference between Secretary Bryan and the legislators closed shortly before midnight. Within three minutes, and before most of the spectators knew what had occurred, Senator A. E. Byington, president pro tem of the upper house, convened the senate, and an amended land bill, which provides that no alien who is ineligible to citizenship under the laws of the United States may hold land in California, was adopted by unanimous viva voce vote.

It will come up for final passage in the regular order tomorrow morning and doubtless will be approved, according to the predictions of the administration leaders. When it comes to Governor Johnson, it will be signed.

The new bill is drawn in strict conformity with the treaty between Japan and the United States, but all efforts to secure an opinion from Secretary Bryan or President Wilson failed and the state leaders decided forthwith to proceed with the plans for enacting it into law. Secretary Bryan brought into the final conference for their messages from President Wilson, but they met with no response from the legislators. At the close of the secret meeting, Governor Johnson and a number of administration leaders declared their opinions remained unchanged. President Wilson's messages were in the form of replies to questions asked by Secretary Bryan the preceding day. In reply to a question as to the effect the words "ineligible to citizenship" would have upon the federal interpretation, President Wilson sent the following to Secretary Bryan:

"I can only say that I cannot assume that the representations heretofore made to the governor and the legislature, which your presence in Sacramento must necessarily greatly have emphasized, will be disregarded and so render it necessary to consider that question."

That was taken as the nearest approach to a threat of danger that has resulted since the conference began.

TO DECIDE ON ROUTE

Old Trails Association Holds Meeting at Kansas City.

Kansas City, April 30.—Whether the western end of the proposed ocean-to-ocean highway shall pass through a section noted for scenic beauty or along a route replete with historical interest probably will be decided at the annual meeting of the National Old Trails' association, which began here.

The original old trails' route across the continent ends at Santa Fe. N. M. Lovers of the historical contend that the route from that point should follow the old "Doniphan trail" and the Kearney road, which gained their names from General Alexander W. Doniphan and General Stephen Kearney.

Delegates favor the scenic route, which was the road built directly west from Santa Fe through the mountains by way of the Grand canyon, reaching California at Baretow, thence to Los Angeles and up the coast to San Francisco.

U. S. Gets Land Worth \$30,000,000.

Portland, Ore., April 30.—Land stipulated to be worth \$30,000,000 and estimated by experts to have a value of \$40,000,000 to \$50,000,000 was taken from the Southern Pacific Railroad company and returned to the federal government by order of United States District Judge C. E. Wolverton. The famous Oregon-California land grant case, involving more than 2,300,000 acres, will be carried now to the circuit court of appeals.

Auburn Twine Plant Again Running.

Auburn, N. Y., April 30.—More than 150 strikers of the International Harvester company's twine mill went to work through the line of police despite the efforts of 750 other strikers to persuade them to remain away, and for the first time in six weeks the wheels turned in the big factory, where half of the machinery is dismantled.

West Virginia Miners Return to Work.

Charleston, W. Va., April 30.—Reports from the strike districts of Paint and Cabin creeks say that miners are returning to work at all the mines, with no disturbance. In a few instances operators have refused to take back some of the strike leaders.

Railroads Still Short of Grain Cars.

Omaha, April 30.—The railroads still report a shortage in cars, especially those designed for the grain handling business, which is now generally toward Chicago, from which place export stuff is going abroad by way of the lakes.

Mrs. S. C. Burdick and Kenneth Hill of Roseburg, who have been visiting friends and relatives at Burlington Junction and with Mrs. S. R. Beech of this city, returned home Tuesday evening.

A Special Message

JUST CAME ABOUT THE BARRY SHOE.

The Barry Shoe Co. sent us a special message informing us that they had just shipped us an order of their shoes.

This will be good news to those who have been waiting to get their kind.

The lasting quality and reasonable prices, as well as the ease of the Barry Shoe has induced people to travel a long distance to get this make of shoe from us.

The Williams Shoe also comes under this head as everyone purchasing a pair cannot say too much in favor of The Williams Shoe.

How About Your Suit for Summer?

That new shipment we received has certainly made a hit.

A FINE ASSORTMENT FOR YOU TO SELECT FROM—Contains Grays, Blues, Browns and Mixtures.

We sell better Suits than our competitors, but always at lower prices. A good excuse—our expenses are less and we don't want as large a margin of profit—We can prove it—ask us to show you.

YOU ARE MISSING A MONEY SAVING OPPORTUNITY IF YOU HAVE NOT PURCHASED ONE OF THOSE 50c MEN'S DRESS SHIRTS.

Of course, that is a low price, but one look at the Shirts and you will know that that is dirt cheap for the quality of Shirts—take a look at them—if they don't look good, we lose a sale.

TOMATOES

Plant plenty of tomatoes, the fruit that you can depend on every year. Because we sell more tomato plants each year is one very good reason why you should plant Englemann's tomato plants. Through actual tests and selections we furnish only varieties that are money makers to the grower under local climatic conditions. Because we raise and sell large quantities of tomato plants is why we can sell Englemann's tomato plants at 15c per dozen for strong transplanted plants, and 25c per dozen for potted plants. All vegetable plants in season.

Summer Board in Colorado Very Moderate Charges

"I'd like to go to Colorado," said a man the other day, "but it costs so much to live there that I'm afraid I—"

"Forget it," said his friend, who had spent a month last summer seeing the show places of the Wonder State. "I had the same idea myself last year until I got that folder the Burlington gets up telling the hotel rates. And I was mightily surprised to find that, besides the hotels, which are as elaborate as you please, there are hundreds of good, clean, wholesome ranch houses in Colorado, where the rates are as low as \$8.00 a week, and they give you mighty good fare."

That folder is published by the Burlington railroad to show folks how they can enjoy a vacation in Colorado at a very reasonable expense. And I'd like to mail you a copy of it—free. It tells all about the country, gives a complete list of hotels and boarding houses, addresses, rates, conveniences, elevation and nearby attractions.

Let me send these, and if you wish I can tell you all about the trains and cost of railway tickets to the most wonderfully charming country in America. Send me a postal quick.
